

NEWS IN 3JM

LEARNING AND FUN IN ROOM 218

DECEMBER 4TH-DECEMBER 6TH

DEAR 3JM PARENTS,

Dear Parents,

Students had another short week but it was action packed. Students wrote their unit 3 math test, learned more about animals, and how gelato is made. The best part of the week....definitely getting to sample the strawberry sorbet and chocolate gelato! We ended the week with an assembly to celebrate UAE day!

In Language Arts, students continued to generate ideas for stories. The students are really learning to use their real lives to inspire their realistic fiction story ideas. Students also learned to empathize and understand the characters in their books while reading. This will help students when they begin to develop the characters for their own stories.

In Math, students wrote a math test and we began unit 4 on multiplication and division. Please have your child memorize tables 0-3 this week. I will be testing them next Thursday. Mastering the multiplication tables is a crucial part of ensuring your child's success in everyday math concepts from now, forward. Every week students will be tested on their tables and rewarded along the way!

In Science, the students learned about animal adaptations . We will begin learning about the life cycle of a frog next week. I will be putting information on the website, so students can begin to look over the information. Please spend the next two weeks helping your child collect the information for their animal projects. This is due Thursday December 6th. Please note; we will be working on putting the information together in class. Only research should be collected at home.

I enjoyed speaking with you all during conference. Have a wonderful long weekend!

Mrs. Jilene Murray and Mrs. Lesley

SCHEDULE THIS WEEK

SUNDAY	DAY
	X
MONDAY	DAY
	X
TUESDAY	DAY
ARABIC, IE,	6
WEDNESDAY	DAY
Arabic, IE, Art	7
THURSDAY	8
Native Arabic, Music, Guidance
